FDD Note 891  
March 1959UFO'S OBSERVED OVER NORWAY

file UFO

The following is the full text of an item which appeared in Oslo  
Conservative Aftenposten of 16 March 1959 (AM edition):

Several bright objects were observed in the sky near Bergen by  
several persons on the evening of 12 March.

According to Birger Storesund, of Storesund, near Bergen, there  
were five of the bright bodies, all of which crossed the sky from north  
to south. The first object, which was first seen at 2010 hours, took  
about two minutes to cross the sky and disappear beneath the horizon.  
In size and appearance, it could be compared to the Soviet sputniks.  
About five minutes later, object number two appeared, later to be  
followed by objects three, and four and five.

According to Storesund, several of his neighbors also saw the  
objects. No sound was to be heard from the objects.

Storesund's dog, which usually reacts to the presence of aircraft,  
paid no attention. The objects were also observed in binoculars.

Approved for Release

2/2010
