## The Black Vault

The Black Vault is the largest online Freedom of Information Act (FOIA) document clearinghouse in the world. The research efforts here are responsible for the declassification of hundreds of thousands of pages released by the U.S. Government & Military.

**Discover the Truth at: http://www.theblackvault.com** 

- During the early part of My 19%, I was told by several engineers, close
  associates them I believe to be raliable, that the Ministry of before was
  alerted concerning the over-flight of a formation of unknown flying objects,
  flying in an ensternly direction during that menth.
- 2 By friends related that but appeared to be aircraft, flying in formation at an extremely high rate of speed at approximately twenty-five this which meters, were observed by redar units of the Bras Air Defends Command. Bithing was done to disturb this flight, the probable remain being that the Bras Air Defends Command had no weapons at its disposal to reach these introders.
- During the same period, May and June 1970, many reports originating from all sections of Eugery cited the appearance of "Flying Sourcers". For two or three weeks, reports appeared almost daily, describing these objects as fast-flying objects which could change direction of flight, secaleration and decaleration with wester may. By friends told so of discussions at the bar Technical Institute is which Eugery's leading mathematicians, engineers and technical and last part, converning these sojects. It was decided that they did not exist and that if anything, the reports were in 11-6 by US propagation. As efficial automaticated in "Bashed Rep" declaring the extire "flying saucer" scare was a syth.
- As intermetted of servicion of one of m, soli-aguag boowver, was "Even if they in t colet, I hope they are on their way to both Boorce."
